9. (Internal Use Only - JGO) Talked to Mr. David Martin, Senate Internal Security Subcommittee staff, and told him that review of General Walt's report to the Senate Subcommittee on Internal Security dated 14 September entitled "The World Drug Traffic" is subject to basically the same comments that have been provided in meetings with Agency representatives and review of earlier drafts of the report. With regard to items such as the stockpiling of opium in Turkey in anticipation of the ban on cultivation, and the wording used in describing Communist control of Hong Kong seamen, he said he might revise his wording. Four or five other illustrative points were touched upon to illustrate the point that the Agency can not support many of the findings and statements. He said he appreciated the Agency comments but that the information gathered on their trip as well as the climate in which this report has been prepared tends to support the report as written. He did note, however, that further changes might be made in the text before final publication.

10. (Unclassified - LLM) In the absence of Rita Williams who had left the staff, talked with Laura, in the office of Representative George Mahon (D., Texas), who said she would provide us with pertinent address information so that we can comply with a request from Mr. Mahon to provide the Texas Tech University with a subscription to the FBIS White Book.
